April 2024

AdvisoryNet**PEST**

Aim & Objectives

The AdvisoryNetPEST project aims to **network and upgrade advisory services across the EU** to increase the **sharing of knowledge** and the **adoption of innovative solutions to reduce the use and risks of pesticides (RURP)** in all EU Member States, enabling the agricultural sector to achieve the targets proposed by the Farm to Fork Strategy.

Objectives

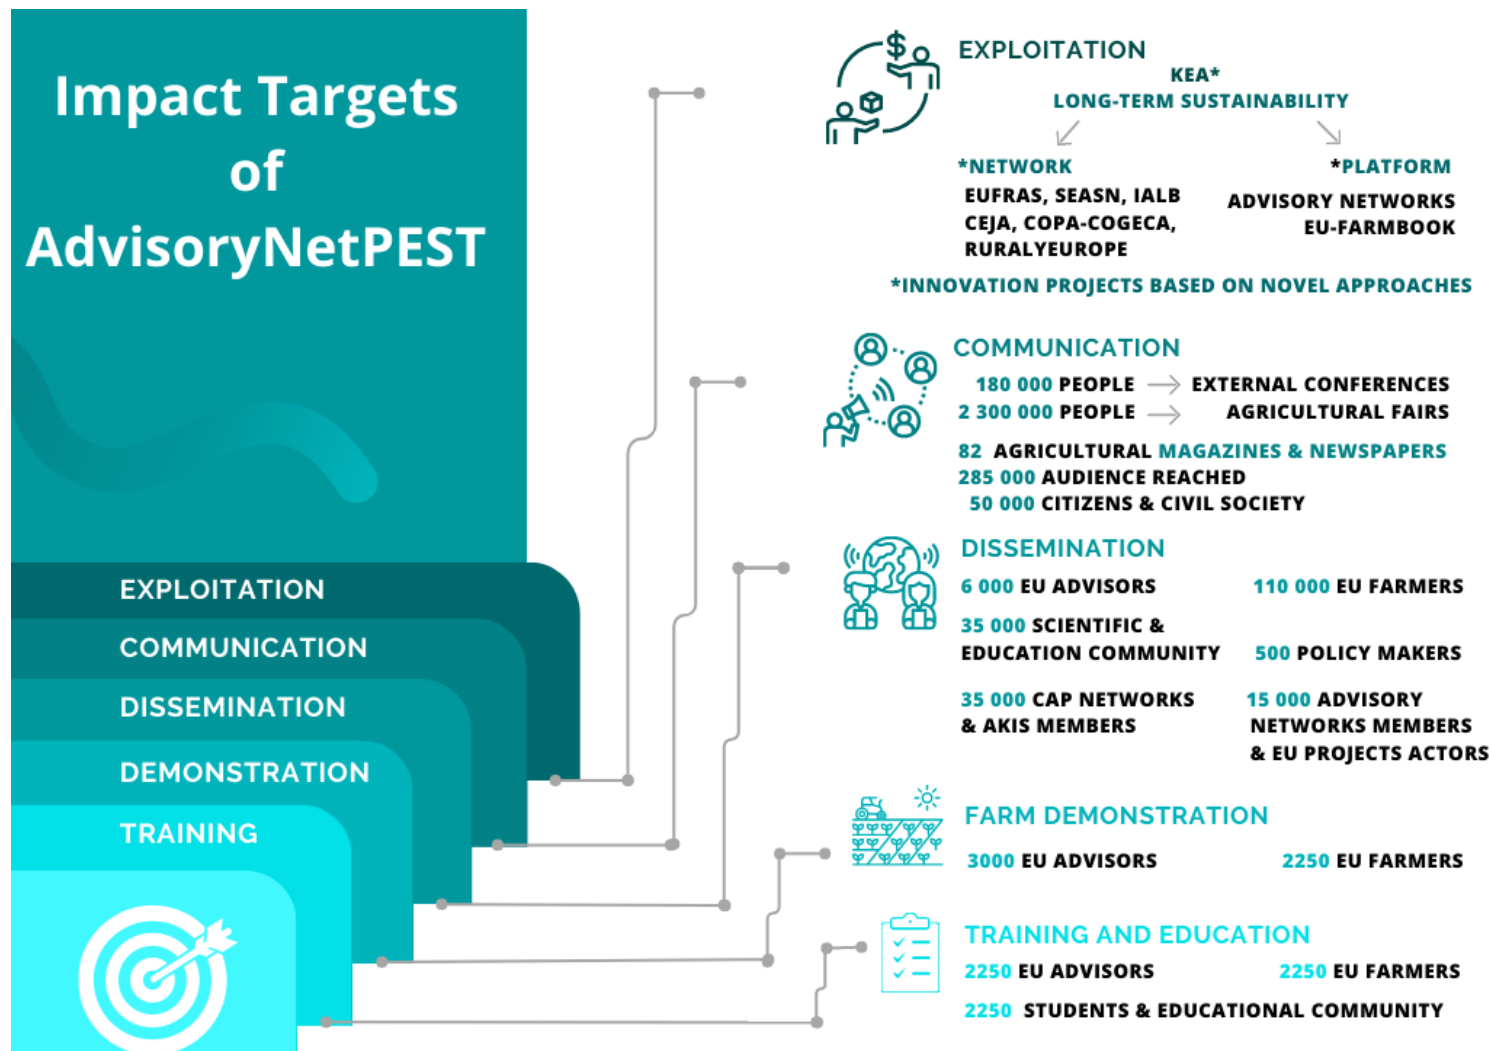

- **Develop an EU network of advisors** to reduce the use and risks of pesticides
- **Identify, select, and shape novel approaches (NAs)** to be adapted and replicated across the EU
- **Exchange knowledge and train advisors** to promote the adoption of the novel approaches by farmers
- **Scaling up the NAs**, fostering the adoption of innovative solutions by farmers

Results

AdvisoryNetPEST project will set a range of **scaling activities** to ensure a **wide deployment of the Novel Approaches**, in all EU countries:

- **36 cross visits**
- **135 training, education and farm demonstration events**
- **42 national AKIS technical workshops**
- **42 brokerage events**

Interaction with the AKIS

- AdvisoryNetPEST will support the **integration of advisors in national and European AKIS networks**, enhancing the exchange of knowledge on the Novel Approaches.
- AdvisoryNetPEST will embed the **national networks of advisors within their local AKIS**, increasing their **technological competences on RURP** through interaction with science and education institutions, and **exploiting new solutions** with an efficient use of policy measures.
- **National AKIS face-to-face technical workshops** will be organised (Years 2 to 4) and will provide a **forum for advisors to present novel approaches, share their experiences, and discuss emerging issues with the AKIS actors**.
 - A total of **42 workshops** will be organised.

Proudly say
Thank you
